

JETCUT 3000

DIGITAL CUTTING SOLUTION
YOUR BEST CHOICE

We are pleased to introduce you the only and amazing Cut Solution!

VALID REASONS TO CHOOSE JETCUT 3000

INNOVATION

The JETCUT 3000 cutting systems are based on a concept of design that gives more attention to performance and reliability, compared to the competing systems on the market.

The components adopted make it possible to set up and update the cutting system according to different cutting needs.

PROFITABILITY

Incredible performance, exceptional quality and unparalleled productivity. Innovative technology and high construction standards guarantee minimal maintenance costs and a very robust solution.

Another benefit of our products is the exceptional energy efficiency. Optimal processing methods, vacuum systems, sophisticated materials and advanced systems keep the energy consumption to a minimum and contribute to the eco-solidarity and sustainability of our products.

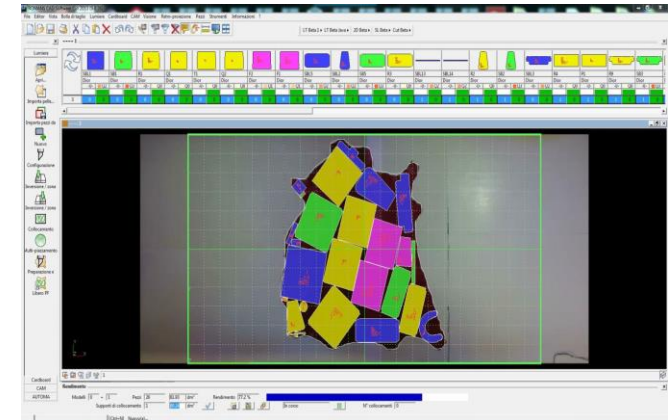

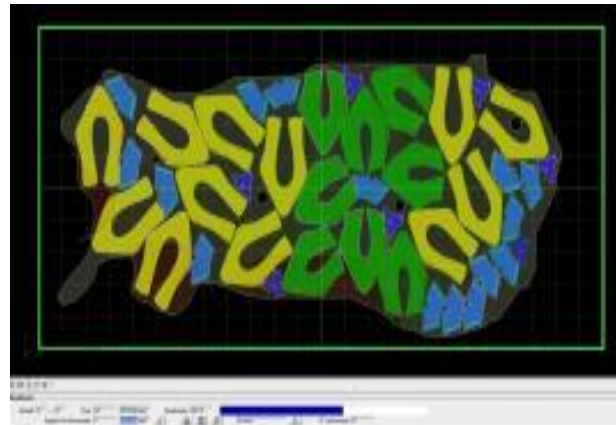

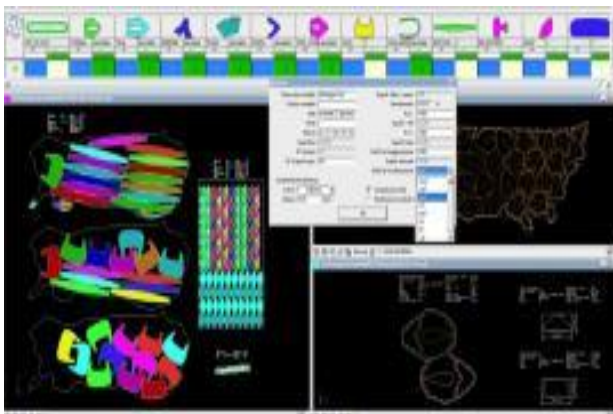

JETCUT 3000 - CUTTING LEATHER, WITH AMAZING PERFORMANCE

SOFTWARE RCS LUMIERE EXPERT

RCS LUMIERE EXPERT : A digital **Square footage**, Automatic **Nesting** and **Cutting program**. A solution that will ensure an efficient productivity over time with all the cutting solutions that adopt the standard HPGL-II and ISO 6983, thus providing a single center of digital cutting.

Assessing the sq.ft measurement of the leather and detecting flaws. Precision of quality areas. Modular and localized vacuuming on customizable areas. Automatic nesting and loading optimized by bar code or interfacing:

Find out about all the features of this Powerful and Flexible Tool of Production, which is also an easy-to-use and customizable product.

Rely on the competence of a personal tutor who will guide you through the path that best suits your needs!

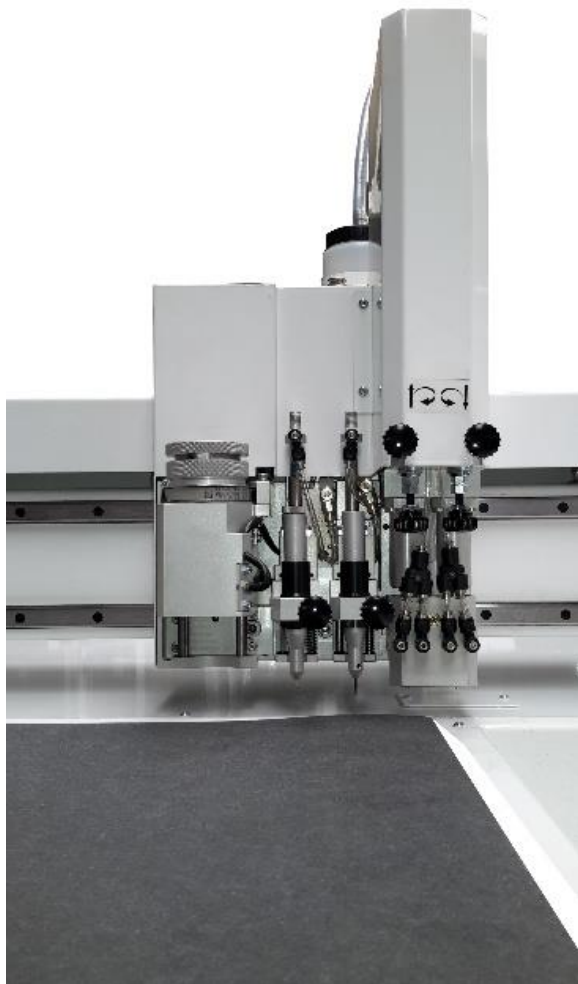

StrategieCad offer its customers Hire, Sale solutions – Technical Services – Training – Consultancy

JETCUT 3000
TOOLS SETUP FLEXIBILITY

Freely choose the best tools to obtain excellent results in cutting **leathers, fabrics, cardboard, composites.**

BASE CONFIGURATION AVAILABLE WITH 5 TOOLS

MODELLO MODEL	AREA DI LAVORO WORKING AREA (mm)	VEL. MAX MAX. SPEED (m/min)	ACCELERAZIONE ACCELERATION	FREQUENZA FORATURE PERFORATING FREQUENCY	CIRCUITO PNEUMATICO PNEUMATIC CIRCUIT

JETCUT 3000

PRECISION AND SPEED

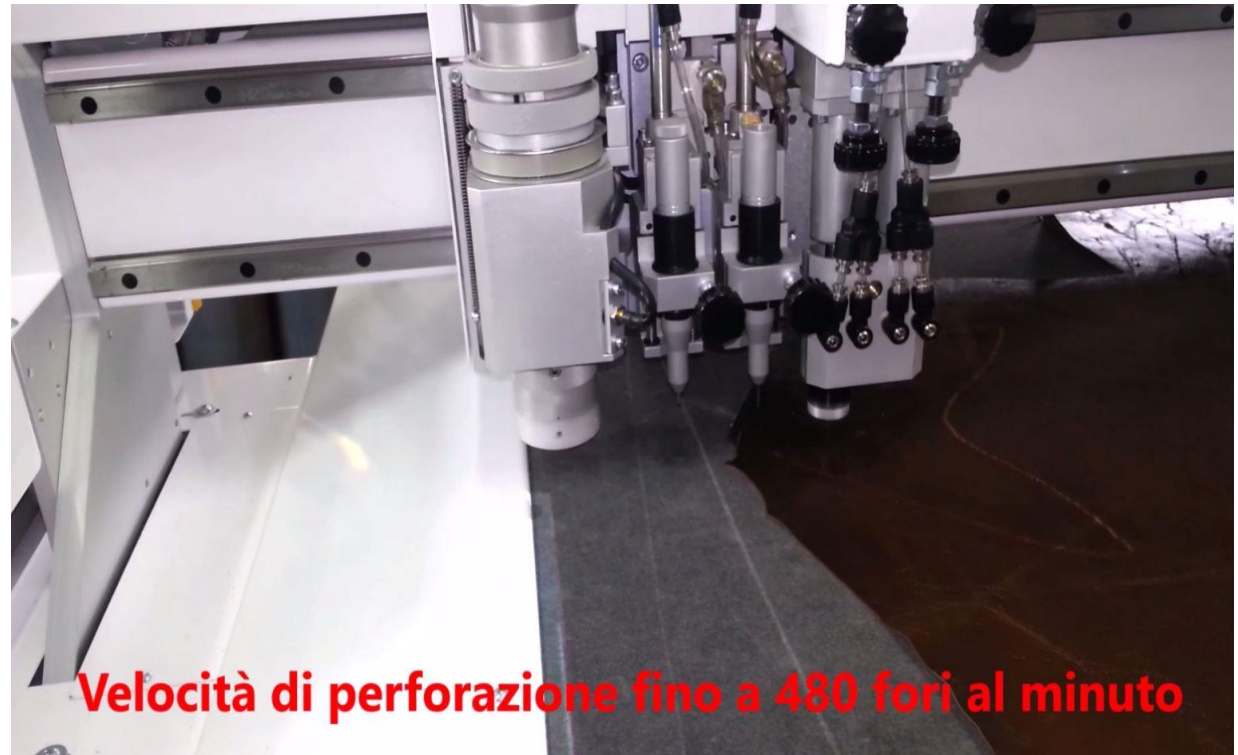

SPEED PROJECT

The exceptional production speed of the JETCUT 3000 cutting machine is due to its activation system which accurately controls the displacement, providing a high cutting precision.

ERGONOMICS

The slanted leather surface of the JET CUT 3000 eases the loading and unloading. And you can also climb on the machine. A TOUCH SCREEN control panel has been positioned on the right-hand side in order to not disrupt any working operations.

MODULAR PROJECTION OF JETCUT 3000

VERSATILE AND EFFICIENT

Strong Holding of the material on the leather surface

The leather surface is made of a solid sector foundation, with control of each vacuum sector???. Energy consumption is low thanks to the the vacuum sectors management, providing a better holding of the material on the leather surface.

Electric Oscillating Tool

Ideal for cutting soft or medium-density materials and for a higher definition of the details. High oscillation frequencies offer a higher working speed.

Pneumatic Oscillating Tool

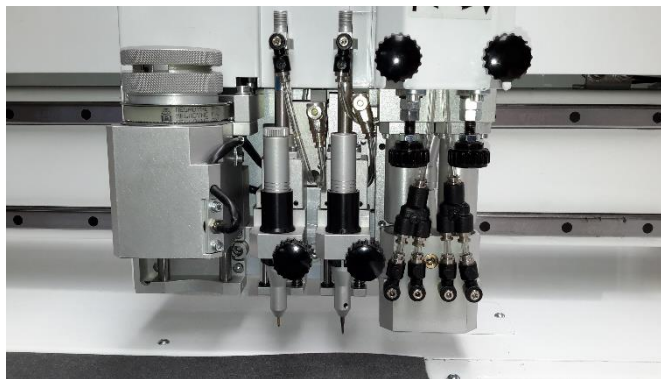

Ideal for cutting stronger or highdensity materials and for a higher definition of the details. High oscillation frequencies offer a higher working speed.

JETCUT 3000

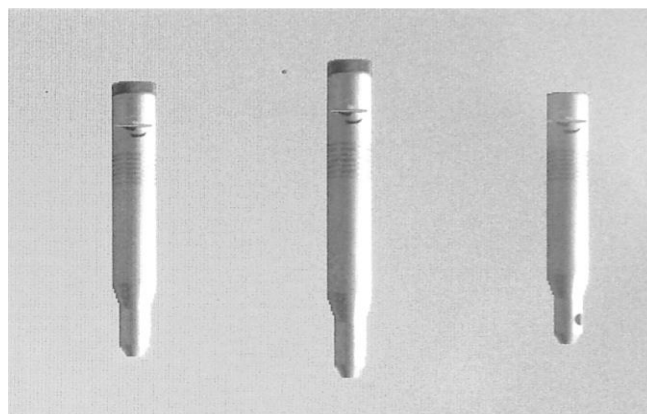

HIGHLY SPECIALIZED, EXTREMELY FLEXIBLE

The modular tools kit of the JETCUT 3000 allows you to adapt the cutting of the skin to your production needs. The specific requirements of the type of cutting or materials will be met thanks to the combination of tools that JETCUT 3000 can use. The design system provides the most suitable tools for cutting, drilling, marking and other applications.

Drilling

The high-performance tools for the perforation of skin, rubber and fabrics, are able to be drilled up to 8 drills per second. (480 min)

Marking

Draw and write on various materials with efficiency. The most suitable replacements are always available and cheap.
